DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 33 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 33 cites “an apparatus comprising a processor and searcher configured to input a code division multiple access signal received through a radio channel to the searcher”. As presented, it is unclear as to how the both the processor and searcher can be configured to input a signal into the searcher. The examiner suggests applicant rewrite the claim to particularly point out and distinctly claim the subject matter applicant regards as the invention.

3. Claim 39 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 39 cites “inputting a code division multiple access signal received through a radio channel”. As presented, it is unclear as where/what the code division multiple access signal is being inputted. The examiner suggests applicant rewrite the claim to particularly point out and distinctly claim the subject matter applicant regards as the invention.

Claims 40-41 are rejected based on their dependency upon rejected claim 39.

Allowable Subject Matter

Art Unit: 2611

4. Claims 1-32, 34-38 are allowed.

5. Claims 33, 39-41 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
